**A MARCUS WALLENBERG SYMPOSIUM
ON COMPLEX ANALYSIS IN SEVERAL VARIABLES
(Nordan 3)
April 22–25, 1999
Grand Hôtel Saltsjöbaden, Stockholm, Sweden**

Schedule of events:

Thursday, April 22:

14:00–15:00 Arrival. Tea or Coffee

15:00–15:02 A word of welcome

15:02–16:00 Urban Cegrell, *A general definition of the complex Monge–Ampère operator*

16:15–17:15 Daniele Struppa, *Algebraic analysis of the Cauchy–Fueter–Dirac operator:
New results and open questions*

17:40–19:00 Dinner

19:20–19:40 Walk to Stockholm Observatory

19:40–20:00 View of Saltsjöbaden from the Observatory

20:00 Visit to Stockholm Observatory starts. Please be at the main entrance at
20:00. View of the skies if possible (of the planets, only Venus will be visible). Demon-
stration inside.

20:17 The Sun sets (Swedish Daylight Saving Time)

Friday, April 23:

09:30–10:30 Gennadi Henkin, *The $\bar{\partial}$ equation on singular varieties and projective embed-
dings of pseudoconcave surfaces*

10:30–11:00 Tea or Coffee

11:00–12:00 Julien Duval, *Examples of hyperbolic sets in $\mathbf{P}^n(\mathbf{C})$*

12:00–14:00 Lunch

14:00–15:00 Eric Bedford, *From the 3 body problem to the complex horseshoe*

15:00–15:30 Tea or Coffee
